

air vent valve

Technical features -
 Suitable for industrial and
 hydraulic installations.
 Ideal for hot/cold water.

Maximum working temperature: 110°C.

Maximum working pressure: 10 bar.

Thread: ISO 228 - DIN 259 - BS 2779.

Materials - Body:
 Brass CW 617N nickel-plated.
Splindle: Brass CW 614N.
O-Ring: NBR.
Float: Polypropylenic resin.
Spring: Stainless steel AISI 302.
